Dear Parent / Carer,

Free School Meals Provision

Next week we will be delivering a food hamper containing sufficient food for 5 lunches to every household where there is a child / children eligible for free school meals. We are hoping this hamper will be delivered on Tuesday and will contain food for one week. This will replace the grab bag provision we have had in place this week. A driver will knock and leave the hamper on your door-step, we cannot unfortunately have face to face contact.

We are led to believe that there will be a government scheme in place in time for the following week. It is likely that this will be a scheme where vouchers are issued to be spent in local supermarkets. As soon as we have the details of this, we will let you know.

If you would still like to collect a grab bag from school on Monday, then that will be available from 11.00am. I do appreciate that it has been difficult for many of you to access daily grab bags because of the current guidelines for social distancing. The new systems will work more effectively and allow us to support you.

I hope that you are keeping safe at this very difficult time and please remember to use the website to source work for your children to do, or telephone school for work packs to be sent.

Kind regards,

Emma Robins
